| Item # | Description | Min Bid | Sold for | Split |
|--------|-------------|---------|----------|-------|
| 1      |             |         |          |       |
| 2      |             |         |          |       |
| 3      |             |         |          |       |
| 4      |             |         |          |       |
| 5      |             |         |          |       |
| 6      |             |         |          |       |
| 7      |             |         |          |       |
| 8      |             |         |          |       |
| 9      |             |         |          |       |
| 10     |             |         |          |       |
| 11     |             |         |          |       |
| 12     |             |         |          |       |
| 13     |             |         |          |       |
| 14     |             |         |          |       |
| 15     |             |         |          |       |
| 16     |             |         |          |       |
| 17     |             |         |          |       |
| 18     |             |         |          |       |
| 19     |             |         |          |       |
| 20     |             |         |          |       |
| 21     |             |         |          |       |
| 22     |             |         |          |       |
| 23     |             |         |          |       |
| 24     |             |         |          |       |
| 25     |             |         |          |       |

**PLEASE – NO "Ziplock" bags.**

Fish should be double bagged in regular fish bags with 1/3 water and 2/3 air, .... or single bagged in "breathable" bags. Plants and dry goods may be single bagged. Leaking bags will be charged a re-bagging fee. THANK YOU
